ADOLESCENT INJURY, SUBSTANCE USE, AND MENTAL HEALTH: AN EXPLORATION OF RATES, DETERMINANTS, AND COMORBIDITIES IN CANADIAN SURVEY DATA

Conférence organisée par le GRISE

Avec la collaboration du Centre de recherche mère-enfant de l'Université de Sherbrooke et du thème fédérateur de la recherche à l'UdeS Santé : promotion, prévention et approches de précision

MARK ASBRIDGE

Professor, Interim department Head, Community Health & Epidemiology | Emergency Medicine, Dalhousie University, Halifax, Canada

Mark Asbridge is a Professor and Interim Head in the Department of Community Health and Epidemiology, and is cross-appointed in the Department of Emergency Medicine, Dalhousie University. Since joining Dalhousie in 2003, his research program has examined the areas of addictions, road safety, injury prevention and emergency medicine, and public policy, with a specific focus alcohol and drug-impaired driving. In addition to his work at Dalhousie, he has served on various boards and advisory committees at the provincial and federal level, as well as with the World Health Organization. He previously held the Mother's Against Drunk Driving – MADD Canada Professorship in Impaired Driving Research and Prevention, and a Canadian Institutes of Health Research New Investigator Award.
