

POSTDOCTORAL FELLOWSHIP POSITION ON PERSONALITY DISORDERS AND NORMAL AND PATHOLOGICAL PERSONALITY ASSESSMENT

The Group for Research and Intervention on Children's Social Adjustment, GRISE ([website](#)) and the Behavioral Difficulties and Social Adjustment by Sex/Gender Research Group is offering a full-time, 12-months postdoctoral fellowship (with possibility of renewal). The GRISE is a research center attached to the Department of Psychoeducation at the Université de Sherbrooke. The postdoctoral fellow will take advantage of multiple databases to study the alternative model of personality disorders, the assessment and structure of normal and pathological personality, and the development of personality disorders, with special consideration for sex and gender. Depending on the interest of the postdoctoral fellow, their research can take a developmental psychopathology, a personality theory (normal and pathological) or a personality assessment perspective. Mentorship will be provided by Pr Yann Le Corff ([website](#)), Pr Mélanie Lapalme ([website](#)) and Pr Vincent Bégin ([website](#)), all three members of the GRISE. The postdoctoral fellow will also be encouraged to collaborate with other members of the GRISE.

THE CANDIDATE WILL BE EXPECTED TO:

- Write scientific papers;
- Conduct advanced statistical analyses;
- Contribute to external funding applications;
- Contribute to various research dissemination activities in scientific and clinical settings;
- Occasionally support undergraduate (e.g., summer internship), master and PhD students (e.g., provide support for scholarship applications, statistical analyses, etc.);
- Commit to apply for postdoctoral fellowships to relevant granting agencies.

REQUIREMENTS:

- PhD in psychoeducation, psychology, criminology, education, or related fields;
- Expertise and autonomy in advanced statistical analysis (notably structural equation modeling);
- CV reflecting a strong potential for research;
- Strong interest in working as a collaborative team member on various research projects;
- A good sense of priorities and a time-efficient work ethic;
- Excellent writing and oral communication skills.

SALARY AND CONDITIONS:

45,000\$ CAD per annum (possibility of renewal).

Université de Sherbrooke

GRISE

Groupe de recherche et d'intervention
sur les adaptations sociales de l'enfance (GRISE)
de l'Université de Sherbrooke

Université de
Sherbrooke

WORKING ENVIRONMENT:

The postdoctoral fellow will benefit from a strong research environment at the GRISE, a recognized research center funded by the Université de Sherbrooke. The GRISE members conduct cutting-edge research on children and adolescents' behavior and adjustment problems, on their transition to adulthood, and on psychosocial interventions designed to address these difficulties. The Université de Sherbrooke is located in the city of Sherbrooke (QC), Canada.

TO APPLY, PLEASE PROVIDE:

- A cover letter (maximum of 2 pages);
- A CV with detailed research experiences, scholarships/awards, publication record, etc.;
- At least one recent published scientific article on a related topic;
- One letter of support (maximum of 2 pages).

The position is currently open. We will receive applications until the position is filled. The expected starting date will be determined with the selected candidate.

Applications must be submitted electronically to Dr Yann Le Corff: Yann.Le.Corff@USherbrooke.ca
